Mobile Advice Centres

**Our Mobile Advice Centre is now out and about across North London, bringing free, friendly energy advice directly to local community spaces and car parks near you.**

Pop along to chat with our advisers about:

**Saving energy and cutting bills**

**Keeping your home warmer and reducing draughts**

**Tackling damp and mould**

**Understanding your energy bills (bring them for a quick MOT!)**

**Carbon monoxide safety and free CO monitors**

**Priority Services Register checks and sign-up**

**Support with money, water bills, grants and more**

We can also guide you to additional support, including debt and money advice, water supplier discounts, and any grants or local assistance funds we're aware of.

**National Energy Action is the national fuel poverty charity helping everyone to live in warm and healthy homes.**

The Mobile Advice Centre is supported by the Cadent VCMA fund, your local Gas Distribution Network, which is why all our advice is completely free and impartial.
