

Ongar Town Council

Attention businesses, community groups and families

'Adopt a pot scheme for local businesses, interest groups and families'

Ongar Town council are looking for business/groups that would like to 'adopt a pot'. This will mean that each planter/container will be planted and maintained by that group, throughout the year. We would like our local businesses and interest groups to consider taking this on to keep our high street looking bright and colourful not just for residents but for those people who also visit our town. If you're a business or group, then you will be able to have advertising on the side of your pot.

We would like to propose a new enthusiastic group of people that would like to take charge of this initiative and form a committee which will report to the Town Council. We would also like to see an annual summer competition awarding prizes to the best kept pots!

So, if you're a local business, interest group or somebody with green fingers, please email the town clerk for more information!
